

LOTTERY GIVES 50 JOBS AT CEMETERY

Ledoux Uses This Method Among 200 Applicants at "Stepping Stone."

INSISTS ON DAILY BATH

Would Solve Unemployment Problem by 5 1-2 Hour Work Day.

If he hasn't solved the unemployment problem, Urban J. Ledoux at least has solved the problem of distributing an inferior number of jobs among a superior number of applicants. Mr. Ledoux, who is in charge of the free employment agency and club at 303 East Ninth street, which he calls the Stepping Stone and which is operated under the auspices of the Baha fellowship, staged a lottery last night among the two hundred or more men who filed the hall and the fifty lucky winners got tickets good for a job at Greenwood cemetery this morning. The precise nature of their employment was not indicated.

But Mr. Ledoux's ideas are by no means exhausted at his lottery scheme. Not only has he developed a plan for determining who shall have the jobs when there are more applicants than jobs, but he also has a solution for the whole unemployment question.

Furthermore, he believes that cleanliness is not only next to godliness, but also a large factor in securing a job. So that a bath is one of the requirements for those who wish to remain on his eligible list. The bath is provided free at the Stepping Stone.

His solution of the problem of unemployment during the period of readjustment is contained in a proposal which he hopes to have adopted at a convention of the unemployed to be held May 1 in 41 Bowery, that all those at present employed shall work only five hours a day and then give at least a half day's work to their less fortunate brothers and sisters. According to Mr. Ledoux's survey of the industrial field, this plan will allow all women who feel that employment at wages is preferable to a domestic career to remain on the job. Whether both of the five-hour shifts are to receive pay for ten hours' work was one of the problems of the day. Ledoux did not touch on in making the announcement last night.

In sketching his previous career to the reporters Mr. Ledoux stated that he had been United States Consul at Bordeaux and in Prague and that he had left the service to take up internationalism. He was subsequently manager of the War Department's employment agency, and also has been connected with the War Camp Community Service.

Mr. Ledoux said that his employment agency is the outgrowth of the bread line which he established at 44 Bowery when the United States employment agency was subsequently manager of the War Department's employment agency, and also has been connected with the War Camp Community Service.

CALLS MANY MOVIES CHILDREN'S PERILS

Mrs. O'Grady, Deputy Commissioner, Shocked by Films.

"The morals of our dear boys and girls must be guarded and protected, and if something is not done in the near future I don't know what will become of them," said Mrs. Ellen O'Grady, Deputy Police Commissioner, yesterday after she had made a tour of the town's motion picture theatres.

Mrs. O'Grady declared that the films shown, especially those shown in the poorer sections of the city, were very immoral, and that they disgusted her. She said that she intends to put a corps of women detectives on the job and that she will see to it that managers of theatres who show immoral or improper pictures are prosecuted.

The clergy, judges, educators and welfare workers of the city, said Commissioner O'Grady, "might as well look up the churches, shut the books and close the courts if they are going to continue to permit the showing of the filthy pictures that are being put on screens in New York and throughout the country. It is a shame on our civilization that this should be tolerated so long."

"Juvenile delinquency has increased in the last eight or nine years and I know it is because of the showing of the filthy pictures that are being put on screens in New York and throughout the country. It is a shame on our civilization that this should be tolerated so long."

'X-FACULTY' BARED IN CHALONER PLEA

Documents Filed With Court Explain His "Napoleonic Trance."

TO BE USED IN LIBEL SUIT

Noted Psychologists Declare Mediumistic Ability Is Far From Insanity.

John Armstrong Chaloner filed in the Federal court yesterday documents to explain the "Napoleonic trance" and other psycho experiments of his, which he contends were the grounds upon which his family sent him to Bloomingdale in 1899. The documents will be used when his case comes up before Judge Dietrich to-morrow on his motion to dismiss the plea of abatement lodged by the newspaper he is suing for libel.

The plea alleges that as an insane person he is incompetent to sue. One of the documents is a study of the trance by Dr. Horatio Curtis Wood of Philadelphia. After his escape from Bloomingdale Chaloner went to Philadelphia under the assumed name of Child, and as such induced Dr. Wood, clinical professor of nervous diseases at the University of Pennsylvania, to take up his case. In the statement filed yesterday Dr. Wood describes how Chaloner developed his ability to go into a trance through discovery of his ability to speak and to write under the control of a subconscious faculty. This faculty Chaloner called his "X-faculty."

The statement recites how Chaloner went into his so-called Napoleonic trance before Augustus St. Gaudens, the sculptor, and Stanford White, the architect, at the Kensington Hotel, New York, in 1897. They were so startled by the resemblance of his features to the death mask of Napoleon that they called him "Napoleon." Other documents included a statement by Prof. William James, the Harvard philosopher, in which Prof. James insists that this mediumistic ability should not be confused with indications of insanity. He insists in his review of Chaloner's psychological experiments that they showed a high class of scientific ability. A further statement by Prof. Joseph Jastrow says that the scientific conservatism of the best scientists of Chaloner's ability.

The last mentioned psychological expert asserts that undoubtedly Chaloner's family and friends, themselves unaware of his mysterious power, the "X-faculty," were deluded into the belief he was insane when they observed him under the control of the subconscious sense. He differentiates this from actual insanity, however, by saying that Chaloner's normal rational control and his "X-faculty" control were clearly distinguished and that the latter manifestation was so under the control of Chaloner's conscious will that it cannot be classed as a delusion.

PULLS FIRE ALARM BOX, FALLS ASLEEP

Thomas Riley Awakened by Sirens; Gets 60 Days.

Thomas Riley, no address known, broke the glass of a fire alarm box at First avenue and Seventh street yesterday and then fell asleep.

He was awakened by the sirens of a hook and ladder, an engine company and a truck company that shortly came speeding to answer the alarm. Patrolman John Walsh, who was cooperating with the firemen in trying to find the box, stumbled upon Riley at the signal box.

"Whazzat?" inquired Riley drowsily when the copper rapped him on the foot. "Did you pull that fire alarm?" demanded Constable Walsh.

"Wuz sat a fire alarm?" "It was," said the cop. "Well, can you beat it? I thought I was ringing for a policeman," Riley answered. Then he appeared to return to slumber, but before doing quite away he murmured: "You fellows better look me up. I'll keep you posted."

So acting by request, as it were, Patrolman Walsh dragged him to his feet and carried him off to Essex Market Court, where he was held in a cage long enough to hear Magistrate Ringel sentence him to sixty days.

When the John Doe hearing into perjury in connection with the Buff witness was resumed yesterday afternoon before Judge McIntyre, Salvatore Ariochello, a Sicilian, brother of Giuseppe Ariochello, the confessed slayer of Buff, after having wrangled with an Italian interpreter during most of the time he occupied his chair, ended by trying to bluster with the court over the matter of his being required to reappear this afternoon to continue his testimony.

"I have a job to work at and can't come," he informed the court through the interpreter after having been told to be present this afternoon at 2:30 o'clock.

"You must come; that makes no difference. You are here at the time I have directed," insisted Judge McIntyre.

"If I do," said the Sicilian, "and I lose my job you'll have to get me a new one."

"How's that?" angrily inquired the Judge. "If you fear at the court again and speak in that insolent manner I will send you to the House of Detention. The witness did not get the aid of the interpreter to get the purport of this last remark. He merely shrugged his shoulders, appeared to acquiesce, and quietly departed.

The testimony Ariochello had given concerned his efforts on behalf of his brother before and after the latter's trial and conviction for the murder of Buff. He was questioned about an affidavit made at the instance of Walter Rogers Deuel, lawyer, which was signed by him before and after the latter's trial and conviction for the murder of Buff.

JOHN WANAMAKER

A. T. STEWART 1823 COMBINED IN NEW YORK 1896 JOHN WANAMAKER 1861

New York, April 10, 1919.
Good morning!
The weather today will probably be cloudy.

There Is An Enormous Profit In Tireless Industry

along well defined lines by concentration of a clear mind and proper salvage of time and care of health.

The wastages of the day that are caused by callers who want only one minute and take twenty, by dreadful losses of time hunting for misplaced books, by mislaid letters, by listless reading of parts of newspapers not useful to yourself, by serving on Boards that grind up so much more time necessary to transact the business if proper program of the work to be done were prepared in typewriting for each member.

"Do your work and go about your business" would be a good line of penmanship teaching in all schools.

Queen Elizabeth, too late, offered half of her kingdom for an inch of time.

[Signed]
John Wanamaker
